

1. Start at center of arena. Measure 50' each side of center (width to be no more than 100' regardless of actual size of arena)
2. Set #1 9' to the left of center
3. Set #3 30' to the left of center. Must be a minimum of 6' from wall. May adjust measurement off of center to accomplish this
4. Measure 4' to the left of #3 and 27 1/2' toward the gate end of the arena and place #6
5. Measure 4' to the left of #3 and 27 1/2' toward the far end of the arena and place #7
6. cross tapes to confirm fences #6 & #7 are lined up and square to each other
7. Set #2 on the line between #1 and #7 with 12' measured from fence #1
8. Set #4, #8 a minimum of 6' from the wall and 15' from the centerline toward the far end of the arena
