Expectations:

- Proper body and hand position is of utmost importance. An emphasis is placed on appropriate use of reins to properly elevate and present a horse in a Saddle Seat frame with a straight line between bit and elbows while using light contact with the equine's mouth.
- Body position with ear, shoulder, hip, and heel alignment will be closely observed in this pattern.
- Use of the arena to best display the equine's ability and athlete's horsemanship will score higher points.
- Animated movement of the equine with no resistance to hand or leg cues during the pattern, maintaining the ability to collect during lead changes and transitions is going to contribute to the overall success of this performance.
- Accurate and quality lead changes are expected, all lead changes accepted
